## HRW Crop Report

August 01, 2025

### Winter Wheat Harvested by State

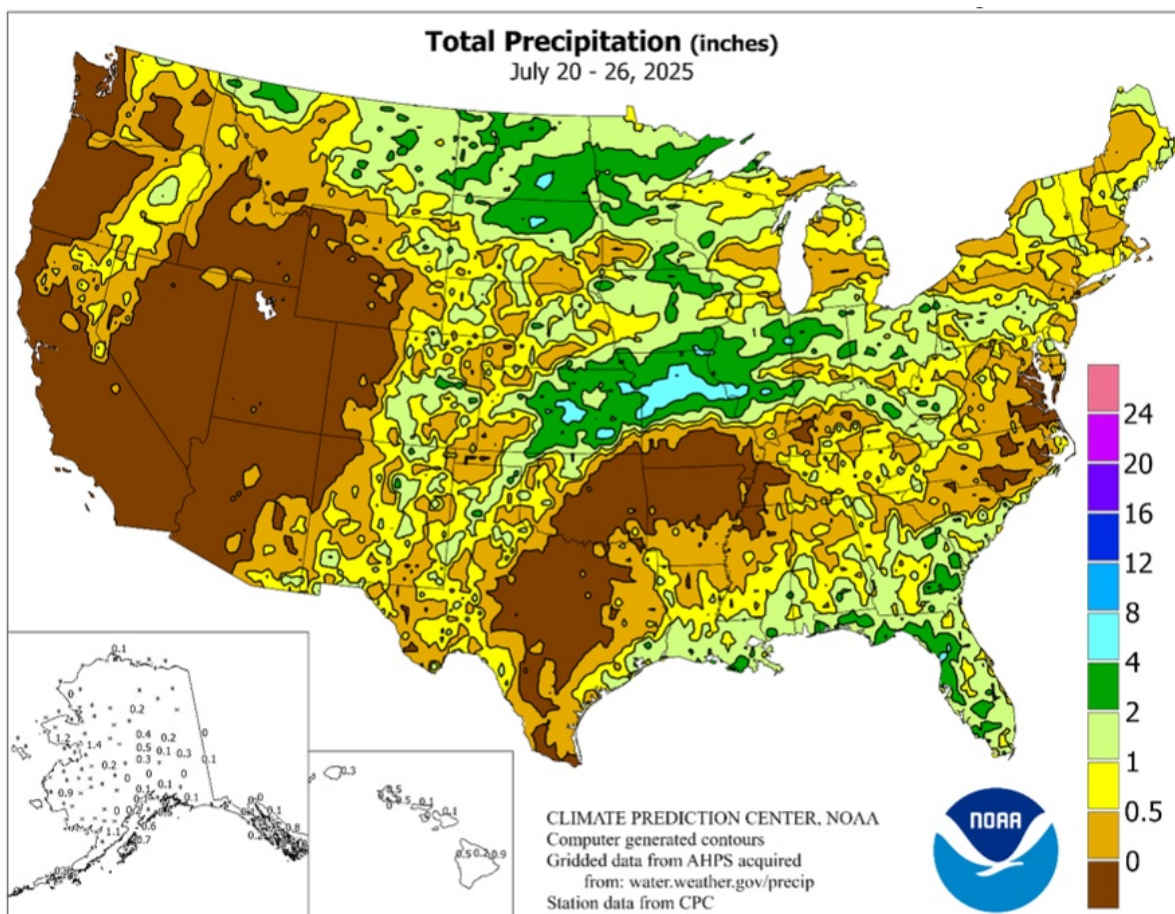

### Wheat Data

Samples Tested	Grade	Dockage (%)	Test Weight (lb/bu)	Thousand Kernel Weight (g)	Moisture (%)
434	2	0.6	59.8	30.6	11.7

--	--	--	--	--	--

Damage Kernels Total (%)	Foreign Material (%)	Shrunkn & Broken Kernels (%)	Total Defects (%)	Protein (%)	Falling Number (sec)
0.3	0.1	0.6	1.1	12.0	370.5

## Weather Outlook

## Nebraska Wheat Crop Report

### District 1 Report

Harvest across the state is approximately 79% complete.

In District 1, progress continues steadily, with around 75% of the area harvested.

Recent rainfall over the last few days and high humidity have caused some harvest delays, pushing start times later into the afternoon.

Yields are averaging between 30 and 50 bushels per acre. Similar to District 2, field areas with thinner stands are experiencing increased Sawfly pressure. Despite this, overall quality remains strong, with protein

levels ranging from 12% to 14%.

## Calendar of Events

### Wheat Field Days

June 18 - August 28: Montana State University

**FOR MORE INFORMATION**

July 14 - August 7: North Dakota State University
